Thermo BOX

Decco Thermo Box shutter is an ideal solution for wide constructions through the use of additional reinforcements. Our roller shutter system is offered as both a finished product and components for roller blind manufacturers.

- excellent thermal insulation
- inspection flap opening from the front or bottom of the box,
- system reinforcements in the bottom profile and front profile and static consoles improve the rigidity of the roller shutters structure
- a wide range of veneers allows you to match the colour of the roller shutters for windows
- the universal adapter enables easy installation on all window profiles
- interchangeable sliders

possibility to encase the box inside and out
